

Competency Assessor - Alberta

All internationally educated occupational therapists (IEOTs) who wish to work as an OT in Canada must first complete the Substantial Equivalency Assessment System (SEAS) program. SEAS is a single, centralized process for the assessment of educational qualifications and competencies of IEOTs. SEAS determines whether the education and competencies of IEOTs are substantially equivalent to Canadian-educated OTs. www.acotro-acore.org

ACOTRO is seeking an occupational therapist to join our Competency Assessor team. The Competency Assessors conduct interview-style competency assessments with IEOTs and prepare necessary competency reports. Assessments comprise an estimated 6.5-hour one-on-one interview, along with some preparatory activities and post-assessment reporting. Currently the assessments are being conducted remotely. Assessors typically complete 1 – 4 assessments per month.

The successful candidate will be provided with in-depth training. The assessors are also supported by the SEAS staff, a variety of resources and competency assessment development.

Position Qualifications

All assessors must meet the following qualifications:

- have practiced as an occupational therapist in Canada for a minimum of seven years
- hold seven years unrestricted OT registration in Canada
- hold a current certificate of registration with the college in his/her jurisdiction with no terms, limits or conditions
- have no prior history with a regulatory body that resulted in a decision made by the regulatory body or representing committee other than a decision to take no action.
- be current with provincial regulatory College's quality assurance/continuing competence requirements

Required Skills

All Competency Assessment Assessors will demonstrate:

- Exceptional interviewing and assessments skills
- Ability to follow a standardized process
- Solid understanding of professional standards of practice and applicable legislation and regulations
- Exceptional written and verbal communication skills
- Extensive experience in report-writing
- Solid understanding of principles of fairness, impartiality, objectivity and transparency
- Solid skills in critical thinking, objective non-biased reasoning and applying standard criteria
- Attention to detail and analytical skills
- Asset – experience in a variety of OT areas (e.g. – geriatrics, mental health, etc.)
- Asset – experience working with new graduates (e.g. – placement supervisor, team lead)
